

After the shot..

We trust that you have a wonderful hunting experience in Greenland.

Here is some information about what's comes after the shot....

1. Skinning and tagging of your trophy

Your outfitter will take care of your trophy in Greenland and prepare it according to your preferences (skinning and tagging). Please make sure that all parts of the trophy are tagged correct and carefully, so we can identify it when we receive it.

Write your name and the trophy no. reference number on our special trophy tags with a water resistant permanent marker.

2. Shipment of your trophy from Greenland to Aalborg / First Class Trophy in Denmark

Your outfitter/hunting agency will arrange shipping of your trophy from Greenland to Aalborg for custom clearance, CVED documentation, Veterinary control/certificate + transport to First Class Trophy Taxidermy. The cost for this service must be paid by the hunter direct to your outfitter Erik Lomholt-Bek.

First Class Trophy will charge 100 EURO per trophy for receiving, handling and frost storage.

4. Taxidermy work

When the trophy arrives on our taxidermy workshop we will immediately take care and secure that your trophy get the correct treatment. First Class Trophy are Europe's largest taxidermy company. We have considerable experience with trophies from Greenland, and can assure you the very best quality and service.

We offer following service:

1. "Dip & Pack" (see price sheet)

Here you can choose to have your trophy prepared as "Dip & Pack" for export to a preferred taxidermist in your country. We boil and clean the skull and tan the skin for mounting (wet tanning, dried) a tan eventual back skin as flat skin. This treatment preserves your trophy the best way.

Please see "Dip & Pack" prices on separate sheet

Trophy mounts in 1st class quality – at prices you have been dreaming of...

www.firstclasstrophy.com

PLEASE NOTE - VERY IMPORTANT

Please note that our extended “Dip & Pack” service including wet tanning of the skin (dried for export), means that *the hunter should get a discount on the mounting price from his / her local taxidermist* compared to do the normal mounting price where the hunter only deliver the salted skin to his/her taxidermist.

How can this be true?

Actually it very simple: Skin already **wet tanned** (and dried for export) can be used directly for mounting by the hunters taxidermist without any other cost than the final trimming of the nose, ears and lips, soaking the skin in a liquid to make the skin flexible and stretchable again.

In the export box with the trophies, there is a document with information to your taxidermist which liquid solution to use for the soaking.

Here is the approx. cost for tanning of skins for mounting in the USA

Muskox

Life size skin : 1.000 - 1.200 USD
Cape size skin : 500 - 600 USD

Caribou / Reindeer

Life size skin : 300 - 350 USD
Cape size skin : 75 -100 USD

Depending of your taxidermist actual cost structure on tanning, you should be able to get a discount on the mounting price.
